I am a Front-End web developer transitioning from a barber/hairstylist position to a career in web development. I am currently a bootcamp student at Grand Circus Detroit, where I am acquiring skills such as Angular, Javascript, Node.js and postgreSQL.

My passion for using logical thinking to solve problems through programming was born when I started experimenting with C++ and Java. I have a strong desire to learn and develop new skills. I am really excited to be part of a team where I can grow and create awesome products.

EDUCATION

Grand Circus Front-End Bootcamp Detroit, MI   January 2019 – June 2019
